As regards the administrative record, there are a number of documents missing before it should be considered complete. Attached is a list of documents that are identified in either the DEIS or FEIS but which are not part of the record. Can you please supplement the administrative record to include these? In addition, the administrative record contains comment letters and emails but does not contain attachments that accompanied these comments. For example, Rethink Austin attached a significant number of documents pertaining to air pollution, health hazards, and more. All attachments should be included in the administrative record.

Please let me know if you are willing to add these documents. We can thereafter address a briefing schedule.

Much appreciated,

Rae

Counsel,

Now that the administrative record has been filed, we should start discussing a briefing schedule for this case. Please let us know what you have in mind on timing and approach so we can discuss and then perhaps present a schedule to the Court.

I will be out of the office next week but will be back July 8 and will be back in touch then.

Thanks,

Lisa
